GERARD FOR AMBASSADOR

President Wilson Selects Justice of New York Supreme Court For the Post at Berlin—Many Other Consular Nominations to Be Made Soon

Washington, June 26.—Justice James W. Gerard of the New York state supreme court has been selected by President Wilson to be ambassador to Germany. Justice Gerard was originally slated for Spain.

Just what occasioned the change has not been explained but it is said to have been the desire of President Wilson to fill the most important European posts at once.

The president has decided to nominate former Governor Benton McMillin of Tennessee for minister to Peru. An important post, not in the diplomatic service, is soon to be offered to Augustus Thomas, playwright, according to present plans.

There is also talk of Maurice Francis Egan, minister to Denmark, being transferred to Spain, but no confirmation was forthcoming today.

The embassy to France is still being held open for William F. McCombs, the Democratic national chairman.

It was reiterated today that within a year Charles R. Crane of Chicago would become ambassador to Russia. Practically the only European posts which have not been filled or for which no choice has been made are Lisbon, Constantinople and the Balkan States.

Joseph E. Willard, former lieutenant governor of Virginia, now is slated for Madrid. Recently he had been selected for Belgium. It has not been decided on who will take his place on the list for Brussels.

Justice Gerard sailed from New York yesterday without knowing he had been transferred on the president's list from Madrid to Berlin. After a short trip abroad, however, he is expected to return to Washington before finally taking up residence in Berlin.

Representative Kahn Says President's Action in Ordering Immediate Prosecution of the White Slave Cases Does Not Deter Him From Pressing His Resolution

Washington, June 26.—Representative Kahn's resolutions to have Congress investigate why Attorney General McReynolds ordered the delays in the new celebrated Dicks-Caminetti white slave cases and the Western Fuel company prosecutions at San Francisco, were not taken up today by the house judiciary committee because of the absence of a quorum. Another meeting is to be held tomorrow. Mr. Kahn declares President Wilson's action that the prosecutions be immediately resumed will not deter him from pressing his resolutions and he expects them reported out to the house for action.

Representative Kahn made a statement of the history of the reputed cases to those members who attended today's meeting and declared the committee owed it to the country to make public all the correspondence which resulted in the postponement.

"Then you don't think the explanation made by Secretary Bryan was satisfactory?" asked Representative Webb.
"No, I don't," said Mr. Kahn.
"It is my opinion," said Webb, "that

United States attorney McNab has been wrong in his action. It looks to me if he were rushing into print and seeking a little cheap notoriety."

"I don't think that is true," said Mr. Kahn.

Kahn agreed to a suggested amendment to his resolutions which would confine the request for papers to those which bear on the postponement of the cases and would not involve all of the voluminous correspondence relating to the evidence in the cases.

Representative Hinebaugh said today he would not press his resolution before the rule committee to direct the judiciary committee to investigate the entire matter.

President Wilson and Attorney General McReynolds still want Francis J. Heney for a special prosecutor. The offer will be made formally as soon as Washington can get into touch with the lawyer, who has been traveling from here to San Francisco.

Minority Leader Mann pressed the case up in the House and attacked the course of the president and attorney general. He declared that the "chief magistrate of this country" had permitted himself to be used in the postponement.

The administration rebuking McNab and subsequently ordering a speedy trial had acted with hypocrisy and "had run to cover like frightened rabbits," he declared.

John D. Phelan, former mayor of San Francisco, today discussed with the attorney general several California plans for the position of special prosecutor, including Frank A. Gould, Thomas J. Hayden, J. V. Costello and Matthew J. Sullivan of San Francisco.

Mr. Mann declared that the "manliness he expected from the Christian gentleman at the White House" would have led him (Mr. Mann) to expect a different course of action.

"I suspect," he added, "that the elder Caminetti and perhaps the junior Caminetti would like to have the cases come to a speedy trial when the two men who worked up the cases have been fired out of the service."

Criticizing the attorney general for postponing the Caminetti case on a telephone message from Secretary Wilson and the Western Fuel cases on another representation, Mr. Mann concluded:

"If the Democratic administration intends to proceed on the theory that when a cabinet officer telephones the attorney general or someone walks into the office of the attorney general it is sufficient reason to postpone, there will not be many Democratic administrations in the next hundred years."

Sacramento, Cal., June 26.—F. Drew Caminetti, son of Immigration Commissioner A. Caminetti, whose elopement case has become a national affair, was arrested today on a bench warrant issued yesterday after his indictment on a charge of having deserted his minor children. He gave bond in the sum of \$2500.

A BOOSTER DAY FOR BASEBALL TEAM

Plans for a monster baseball day, to be held upon the return of the Ogden team from its outside engagements, are being considered by the Weber club, the Ogden Publicity bureau and the directors of the baseball association.

It is not known whether enthusiasm will be aroused by tuxedos or badges, but several plans are under consideration which it is hoped will bring about a desire on the part of Ogden fans to attend the game and root for the home team.

Secretary Angus Kennedy has received information to the effect that a new player will join the team by Saturday or Sunday, and, with a few other changes, the boys will return to Ogden vastly strengthened. The directors believe that with the fans back of it, the team will redeem itself and forge toward the top.

MOVIES ARE TO BE MADE IN OGDEN

At the meeting of the Publicity bureau directors today, it was decided to purchase an American-made motion picture camera equipped with a Zeiss lens, and orders to that effect were sent to R. L. Noggle who is in Chicago, where he went for the purpose of studying the operation of a motion picture camera.

A report of the meeting held at Montello was read by the secretary and the directors decided that other meetings should be held in Nevada to promote the road through Ogden. It is probable that the secretary will go to Nevada tomorrow to meet with the county commissioners and make roads enthusiastic. Governor Oddie will also be conferred with.

State Corporation Commission Refuses to Give Permission to Railroad to Issue \$30,000,000 in Trust Notes—Must Explain More Fully Its Purpose

Phoenix, Ariz., June 26.—Although the California state railroad commission has acquiesced in the proposal, the corporation commission of Arizona has declined permission to the Southern Pacific company to issue \$30,000,000 in trust notes. Notice of the refusal was given today on the ground that the company had not sufficiently explained its purpose. It was also feared that the company would soon ask for permit to issue bonds to retire the notes.

It was understood the Southern Pacific had already arranged to place the notes in New York at 97½ and needed only the permission of the commission of California and Arizona to issue them.

Seven and a half millions were desired by the company to reimburse the treasury for money advanced to

PAPERS ARE TO BE RUSHED TO DESTINATION

Assistant Postmaster Rufus Garner has received an order from the first assistant postmaster general, calling attention to the importance of dispatching newspapers with all possible haste. The order requests that papers be given first attention after first class matter is handled.

It is pointed out in the order that daily papers contain stock reports and market conditions that are of great value to business men and that a delay in the sending of such papers might result in injury to business.

IMPROVEMENT WORK AT THE TABERNACLE

Notwithstanding the fact that a new blower to be operated by electricity has been installed in the Tabernacle building for the big organ, the water power blower will be retained for use in cases of emergency.

The new blower was installed yesterday and tested out, proving to be satisfactory to the Tabernacle committee. The cost of the apparatus was something over \$500. It was made in Philadelphia and was installed by J. J. Toronto of Salt Lake.

Though given a thorough test yesterday with a three-horse power current it will not be used for church or other services until about September 7, as the Tabernacle will be closed for repairs until then.

The committee is eager to park the south half of the square immediately and to that end is using its best persuasive powers to induce the contractor for grading and leveling the premises to put on a force of men and teams. Water mains have been laid for the entire square, so that plenty of water will be at the command of the gardener at any time. It is much desired that at least a half of the square be seeded to lawn grass this season, before the reopening of the church edifice.

The repairs to be made on the building will consist of repainting inside and out, replastering the gutter walls, covering the building with a new roof, making modern and sanitary closets and erecting a new entrance to the choir stand.

Riverside, Cal., June 26.—Anti-Japanese sentiment at Hemet, a small town near here, was manifested today when a party of citizens met an apricot picking crew of Japanese from this city and ordered them to leave at once. The baggage of the Japanese was thrown aboard the train after them. There is not a Japanese in Hemet.

The Asiatics were engaged by ranchers near Hemet. After they had been driven out, the employing ranchers told the Hemet men that the Asiatics were not Japanese but Koreans. The exclusivists replied that that made no difference. Hemet wanted neither race within its borders.

Consuls Act At Once.
Los Angeles, Cal., June 26.—The Japanese organizations of Southern California took immediate cognizance today of the incident at Hemet when 15 Asiatics were driven from the town. H. Wakabayashi, secretary of the Japanese association of Southern California, telegraphed the facts in the case to Y. Numano, acting consul general at San Francisco.

As Korea is a Japanese dependency, officials of the Japanese association said Koreans were as much entitled to protection from the mikado's government as Japanese themselves.
